
Vector Lyapunov Functions And Stability Analysis Of Nonlinear Systems

direct adaptive backstepping control for a class of mimo ... - abstract—this paper proposes a direct adaptive backstepping control scheme for a class of multi-input-multi-output nonlinear uncertain non-affine systems using output recurrent wavelet neural networks (orwnns), called **adaptive control: introduction, overview, and applications** - e. lavretsky 2 robust and adaptive control workshop adaptive control: introduction, overview, and applications course overview • motivating example • review of lyapunov stability theory - nonlinear systems and equilibrium points -linearization - lyapunov's direct method **stability i: equilibrium points - directory** - 175 a b figure 8.1: two examples of orbits in the x_1 x_2 -plane in the case when the origin is a stable equilibrium point of the system (8.4): (a) when both eigenvalues are real (and not equal), and (b) when they are complex conjugates with negative real part.
